

Everest™ Snap with Kickstand

Everest is the most protective case in our range
+ MagSafe compatible with kickstand

The Everest Snap w/ Kickstand iPhone 15 case – a pinnacle of protection and convenience. With a staggering 20ft (6m) drop protection fortified by Graphene, the strongest material on earth, it's the fortress your phone deserves. Yet, Everest is more than just a protector – it's a guardian against heat, with Graphene's properties preventing temperature degradation during prolonged use. Despite its incredible defense, Everest maintains a sleek profile, and its dual-layer design ensures durability without bulk. The integrated kickstand offers hands-free viewing, while up to 92% recycled materials make it eco-conscious. Everest is MagSafe compatible, completing the package with seamless wireless charging. Choose Everest Snap w/ Kickstand – where ultimate protection meets sustainability and convenience for your iPhone 15.

Graphene: One of the strongest materials on earth³

EXTREME STRENGTH³
Graphene is harder than a diamond, yet more elastic than rubber, and up to 200x stronger than steel.

HEAT DISSIPATION³
Graphene is one of the most conductive man-made materials on earth.

INDUSTRY-LEADING INNOVATORS USE GRAPHENE³
• Aviation
• Aerospace
• Professional Sports
• EVs
• Military

Graphene

- Everest™ Snap Kickstand has been tested and proven to protect your phone from drops up to 20 feet (6 meters).¹
- Ultra-impact protection without the bulk you expect from 20' of rated drop protection.
- A Graphene-infused back plate and TPU interior give Denali additional strength to protect from the toughest drops.
- Integrated kickstand provides optimal, hands-free viewing.
- Made with up to 92% post-consumer recycled materials.²
- Compatible with MagSafe and charges with most wireless chargers.

Put your hands together for the Everest Snap w/ Kickstand iPhone 15 case – where unrivaled protection meets convenience in one remarkable package. Imagine a case that takes protection to new heights. The Everest Snap isn't just any case – it's the pinnacle of defense in our range. With an astonishing 20ft (6m) drop protection, it's like having a fortress for your phone, keeping it safe even in the most challenging situations. But there's more to Everest than meets the eye. Infused with the might of Graphene, the strongest material on earth, it brings unparalleled strength to your device, ensuring it's shielded against life's unexpected surprises.

The benefits don't stop at protection. Everest is designed with your phone's well-being in mind. Thanks to Graphene's heat-dissipating properties, your device and battery are safeguarded from temperature degradation, even during extended use. Despite its incredible protective prowess, Everest remains impressively sleek. You won't have to compromise on style or convenience for its 20ft (6m) drop protection – it's like having a bodyguard that fits perfectly in your pocket. This remarkable protection comes from a dual-layer design – a Graphene-infused back plate combined with a TPU interior, creating a formidable defense against even the toughest drops.

But Everest is more than just tough – it's versatile too. The integrated kickstand offers optimal hands-free viewing, making your multimedia experience effortless. And when it comes to sustainability, Everest leads the way. Crafted with up to 92% post-consumer recycled materials, it's an eco-conscious choice that aligns with your values. Completing its range of features, Everest is MagSafe compatible, adapting seamlessly to wireless charging for added convenience. Choose the Everest Snap w/ Kickstand – where unparalleled protection, sustainability, and convenience collide to provide the ultimate iPhone 15 case experience.
